Why Choose Us

Quality and Value

DumpsTests Practice Exams are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development - no all dumps.

Tested and Approved

We are committed to the process of vendor and third party approvals. We believe professionals and executives alike deserve the confidence of quality coverage these authorizations provide.

Easy to Pass

If you prepare for the exams using our DumpsTests testing engine, it is easy to succeed for all certifications in the first attempt. You don't have to deal with all dumps or any free torrent / rapidshare all stuff.

Try Before Buy

DumpsTests offers free demo of each product. You can check out the interface, question quality and usability of our practice exams before you decide to buy.

As a busy-working man I have no time and heart to prepare so I purchase braindumps for CPIM-SMR. I pass exam just one day's preparation. Great!

Laura

Exam : **DES-9131**

Title : Specialist - Infrastructure
Security Exam

Vendor : EMC

Version : DEMO

NO.1 What contains a predefined set of instructions or processes that describes the management policy, procedures, and written plan defining recovery of information systems?

- A. BIA
- B. BCP
- C. RAS
- D. DRP

Answer: B

NO.2 Your data center uses a diesel generator as backup for two different power grids provided by your regional power company. During a period of unprecedented heat, you experience brown-outs on both grids simultaneously. The diesel generator starts up but only runs for two minutes before it also shuts down, leaving your entire data center down until grid power can be restored. Further inspection reveals a clogged fuel filter.

Failing to schedule preventive service for the backup generator is a failure in which function?

- A. Recover
- B. Protect
- C. Respond
- D. Detect

Answer: D

NO.3 The CSIRT team is following the existing recovery plans on non-production systems in a PRE-BREACH scenario. This action is being executed in which function?

- A. Identify
- B. Recover
- C. Protect
- D. Respond

Answer: C

NO.4 What must be done before returning a compromised laptop to normal operations in the environment?

- A. Eliminate the root cause of the compromise
- B. Device cannot be returned to the environment
- C. Re-image the device
- D. Perform a virus scan

Answer: C

NO.5 A new employee is starting work at your company. When should they be informed of the company's security policy?

- A. Based on human resource policy
- B. During regular security awareness sessions
- C. Annual security policy review
- D. After the first security infraction

Answer: B

NO.6 Match the security event to its description.

Event	Description
Denial of Service	Non-authorized person with access to places where they should not have, or having access to systems and resources not designated to them
Attrition security event	Generated by behaviors from users, employees, contributors, or vendors who violate company policies
Misuse	Service or workload is overwhelmed, or has no available resources to perform its task
Intrusion event	When a user downloads a message with malicious links, images, attachments, or scripts
Email security event	Generated by brute force attacks to compromise, degrade, or destroy systems, networks, and services

Answer:

Event	Description
Denial of Service	Intrusion event
Attrition security event	Misuse
Misuse	Denial of Service
Intrusion event	Email security event
Email security event	Attrition security event

Description

Intrusion event

Misuse

Denial of Service
